Subject: TMMD Administrative actions

HOA,

The TMMD Board took several actions at our meeting last night that we thought you should be made aware of.

First - We formally thanked the ADC for their efforts and assistance in completing their efforts under the charter for the first phase of the development project. We then voted to cancel any further recognition of the ADC and formed a new committee, the "Facilities Development Committee" with responsibility only to the Metro District.

Second - the TMMD will be launching their own web site in the near future. It will contain several section on the history of the district, the bonds and taxation explanations, etc, and will become the place for all information, status and questions for the Development project the district is undertaking.

Thank you for your assistance,

Tim Strunk
TMMD Board
